

In the Claims:

1. (Currently Amended) An electronic device (1) comprising  
[[ - ]] a frame part (3);  
[[ - ]] a PCB (printed circuit board) (4) provided with electronic components,  
[[ - ]] ~~said the~~ PCB (4) being connected to ~~said the~~ frame part (3);  
[[ - ]] a vibrator (9) electrically connected to ~~said the~~ PCB (4),  
~~said the~~ vibrator (9) being fixed in relation to ~~said the~~ frame part (3) by means of an elastic  
fitting (11;111;211); and  
[[ - ]] an exchangeable outer cover (2;102;202) releaseably connected to ~~said the~~ frame  
part (3) the exchangeable outer cover abutting on the elastic fitting when the  
exchangeable outer cover is mounted on the electronic device; and  
[[ - ]] a protective shell element connected to the frame part and having an access  
opening through which the exchangeable outer cover abuts on the elastic fitting, the  
protective shell element being positioned between the PCB and the exchangeable  
outer cover, the vibrator being mounted on a side of the shell element that faces the  
PCB.  
~~characterised in that said exchangeable outer cover (2;102;202) abuts on said elastic fitting~~  
~~(11;111;211) when said exchangeable outer cover (2;102;202) is mounted on said electronic~~  
~~device (1).~~

2.- 3. (Canceled)

4. (Currently Amended) An electronic device according to claim [[3]]1,  
~~characterised in that~~ wherein the elastic fitting (11;211) is provided with a protruding fitting  
part (16) that protrudes through the access opening (14).

5. (Currently Amended) An electronic device according to claim [[3]]1,  
~~characterised in that~~ wherein the exchangeable outer cover (102) is provided with a  
protruding cover part (116) that protrudes through the access opening (14).

6. (Currently Amended) An electronic device according to ~~any one of claims 1-5~~claim 1, ~~characterised in that~~ wherein the vibrator (9) comprises a housing (12); and ~~that the~~ elastic fitting (11;111;211) surrounds at least a major part of the housing (12).

7. (Currently Amended) An electronic device according to ~~any one of claims 1-6~~claim 1, ~~characterised in that~~ wherein the elastic fitting comprises a rubber grommet(11;111).

8. (Currently Amended) An electronic device according to ~~any one of claims 1-6~~claim 1, ~~characterised in that~~ wherein the elastic fitting comprises a flexible metal holder (211).

9. (Currently Amended) An electronic device according to ~~any one of claims 1-8~~claim 1, ~~characterised in that~~ wherein the electronic device (1) is a mobile radio station, such as a mobile telephone.

10. (Currently Amended) An electronic device according to claim 9, ~~characterised in that~~ wherein the exchangeable outer cover (2;102;202) is a front cover; and ~~that the frame part (3)~~ is a back cover.
